Who are we?

- We are genuine, engaged, and dedicated to achieving goals in a safe, strategic, and sustainable manner.
- We overcome obstacles, follow-through on our commitments, take pride in our work, and live our culture.
- We are professionals who believe in growth, inclusion, and diversity.
- We promote teamwork and open communications to inspire all stakeholders.

Position: Project Foreman (Granite Creek)

i-80 Gold Corp is seeking a candidate to fill the position of Project Foreman. The Project Foreman is responsible for the day-to-day execution of the short-term mine plan. This involves regular interactions with the Project Manager, technical staff, mining and maintenance personnel and contractors to ensure that all aspects of the operation are being met. It also includes development and training of employees to standards for safe and efficient equipment operation.

Location: Granite Creek Mine near Winnemucca and Battle Mountain, NV

Responsibilities

- Direct supervision of surface and underground contractor leaders and i-80 employees to safely and effectively complete operations and maintenance objectives
- Ensure appropriate facilities, procedures, and workforce competence to achieve legal compliance, incident prevention and the achievement of tasks in a healthy, safe, and environmentally sustainable manner
- Conduct frequent planned and unplanned workplace inspections
- Meet or exceed budgeted production and cost targets
- Evaluate, prioritize, plan, and assign operators to safely complete necessary mining and project development activities
- Partner with maintenance contractors and employees to ensure planned maintenance is scheduled and completed
- Work with maintenance, geology, and engineering to ensure daily, weekly, and monthly plans are aligned
- Provide assigned reports pertinent to the surface and underground operations
- Formulate, monitor, and ensure employee compliance with mining regulations and i-80 policies and procedures
- Organize people, materials, and equipment, and assist in developing and monitoring work schedules to achieve mine plans
- Support the site safety culture through leadership and regularly engaging with and holding the workforce accountable for safe work practices
- Participate in health and safety meetings and risk reviews as required
- Perform other duties as assigned

Qualifications

- Minimum of eight (8) years progressive experience within the mining industry with five (5) years direct supervisory experience
- Five (5) years Underground experience strongly preferred
- Bachelor's degree in Mine Engineering, related field of study, or relevant experience would be an asset
- Comprehensive understanding of mine-site operations and underground equipment
- Ability to read and interpret documents such as safety rules, operating and maintenance instructions, and procedure manuals, ability to write routine reports and correspondence.
- Ability to speak effectively before groups of hourly and salaried employees and contractor employees
- Ability to define problems, collect data, establish facts, and draw valid conclusions
- Adaptability to work effectively in a context of change, manage conflicting demands, and adapt to a variety of situations and individuals
- Effective conflict resolution skills
- Demonstrated computer skills (i.e. MS Office including Excel, Word and PowerPoint) preferred
