- We are professionals who believe in growth, inclusion, and diversity.
- We promote teamwork and open communications to inspire all stakeholders.

Position: Mobile Maintenance Technician

i-80 Gold Corp is seeking a candidate to fill the position of Mobile Maintenance Technician. The right individual is responsible for the general mechanical maintenance of mobile equipment including graders, dozers, water trucks, light vehicles, loaders and haul trucks while continuously aligning daily functions to reflect the company's values.

Location: Granite Creek Mine, 6750 Getchell Mine Road, Golconda NV

Responsibilities

- Performs all work assigned in a safe, controlled manner and ensures that the area is safe for other employees and other workers.
- Compliance with all company policies and procedures including but not limited to safety, environment, confidentiality, and the company's code of conduct.
- Accurately diagnose and troubleshoot mechanical problems on heavy equipment.
- Works with other maintenance employees, original equipment manufacturers, and contract maintenance support personnel to repair mining equipment to reduce and control life of mine equipment maintenance costs and minimize downtime.
- Make repairs in a timely fashion.
- Order parts accurately and complete all necessary paper or electronic entry work involved.
- Active communication with supervisor and other crews to coordinate repair activities and provide updates on work in progress.
- Performs other related functions as assigned by supervisor.

Qualifications

- Competent mechanical aptitude required.
- Familiarity with engine and powertrain design and function required.
- Understanding of mechanics, hydraulics, pneumatics, and functions of mobile equipment required.
- Knowledge of all tools and equipment necessary to do mine mobile maintenance required.
- Ability to work in a team environment with minimal supervision required.

- Ability to perform basic welding and cutting required.
- Ability to operate various heavy equipment to facilitate maintenance work, including forklifts and service trucks required.
- Good verbal communications, interpersonal, and listening skills required.
- General understanding of mining operations required.
- Minimum of two (2) years diesel repair experience preferred.
- Diesel Technician's Certification preferred.
- Ability to read and understand hydrological and electrical schematics preferred.
- Some understanding of milling and fixed equipment maintenance preferred.
