

About Us: i-80 Gold Corp is a well-financed gold producer and developer holding an impressive portfolio of advanced-stage gold projects in the State of Nevada. The Company's primary goal is to build a self-sustaining, multi-asset, mining company with a peer-best growth platform by employing a methodical, capital disciplined and staged approach to minimize risk while also assessing and monitoring for accretive growth opportunities. For more information about i-80 Gold please visit our website: www.i80gold.com.

Who are we?

- We are genuine, engaged, and dedicated to achieving goals in a safe, strategic, and sustainable manner.
- We overcome obstacles, follow-through on our commitments, take pride in our work, and live our culture.
- We are professionals who believe in growth, inclusion, and diversity.
- We promote teamwork and open communications to inspire all stakeholders.

Position: IT Technician

i-80 Gold Corp is seeking a candidate to fill the position of IT Technician. The right individual is responsible for diagnosing, maintaining, and repairing hardware and software components to ensure the smooth operations of IT systems. The IT Technician is responsible for maintaining and monitoring the network systems and IP based devices on the i-80 Gold network to ensure reliability, integrity, and availability for the operation. The IT Technician reports directly to the Director of IT, in all aspects of the i-80 Gold user and network environment and is accountable for all aspects of first level support within that environment.

Location: Winnemucca, NV
