Who are we?

- We are genuine, engaged, and dedicated to achieving goals in a safe, strategic, and sustainable manner.
- We overcome obstacles, follow-through on our commitments, take pride in our work, and live our culture.
- We are professionals who believe in growth, inclusion, and diversity.
- We promote teamwork and open communications to inspire all stakeholders.

Position: Electrician

i-80 Gold Corp is seeking a candidate to fill the position of Electrician. The Electrician would safely maintain, install, troubleshoot and repair electrical power and control systems and equipment throughout mine operation. This role will support the achievement of safe, efficient production targets in our growing operation.

Location: Lone Tree Property near Battle Mountain, NV

Responsibilities

- Install, troubleshoot, repair, and maintain electrical systems to keep production running safely and reliably
- Install, troubleshoot, and perform maintenance on a variety of instrumentation and control systems
- Provide constant evaluation of equipment condition and acceptable standards for electrical maintenance
- Perform maintenance, upgrades, and repairs on power generating equipment and distribution systems
- Ensure compliance with relevant company health & safety policies and procedures as well as government regulations
- Other duties as assigned

Qualifications

- High School Diploma or GED preferred
- Preferred candidate will have a Certificate of Completion of an apprenticeship program or equivalent formal electrical training or certification
- Minimum three or more years' electrical experience in a mining environment highly preferred
- High proficiency in reading and understanding electrical schematic, one-line, logic and interconnection diagrams and drawings
- Thorough knowledge of electrical theory in both AC and DC controls and systems
- Proficiency in the safe use of electrical test meters, instruments, computers, and recorders
- Thorough knowledge of the safe operation and safe maintenance work practices of electrical systems and equipment
- Strong ability to drive positive safety culture throughout organization required including familiarity with MSHA regulations
- Ability to work with team members and contract partners throughout the organization in a positive, professional manner required
- Good written and verbal communication skills required

How to Apply:
