- We are professionals who believe in growth, inclusion, and diversity.
- We promote teamwork and open communications to inspire all stakeholders.

Position: **Maintenance Millwright**

i-80 Gold Corp is seeking a candidate to fill the position of Maintenance Millwright. The Maintenance millwright will be responsible for maintaining and repairing all process equipment and machinery while optimizing processing and reducing equipment downtime by performing predictive and preventative maintenance on all equipment and machinery.

Location: Ruby Hill Mine Site, Eureka, NV

Responsibilities

- Mechanical repair and installation of process equipment, Goulds and Wemco Hidrostral pumps and screens.
- Perform preventative and predictive maintenance procedures; greasing, oiling, changing filters, equipment inspections, etc.
- Capable of welding, cutting, grinding, and fabrication.
- Complete work orders and other maintenance documentation.
- Perform housekeeping duties and work area checks.
- Trouble shoot equipment and determine root cause analysis.
- Attendance is deemed an essential job function.
- Other duties as assigned

Qualifications

- 1-2 years of welding; stick and wire feed, vertical, horizontal, overhead; and fabricating experience.
- Ability to rebuild pumps, perform dial and/or laser alignment, install mechanical seals and couplers.
- Ability to operate a variety of light equipment, hand trucks, forklift, and vehicles.
- High school diploma or equivalent.
- Must be able to lift and carry up to 30-50lbs
- Ability to work in extreme weather conditions; exposure to wet and/or humid outside weather conditions; and extreme cold and/or heat.
- Ability to maintain awareness of occupational hazards and safety precautions. Skilled in following safety practices and recognizing hazards.
- Physically capable of sitting or standing, shovelling and performing other types of physical work for long periods of time.
- Must be willing to work shift work or otherwise assigned.

How to Apply:
