Who are we?

- We are genuine, engaged, and dedicated to achieving goals in a safe, strategic, and sustainable manner.
- We overcome obstacles, follow-through on our commitments, take pride in our work, and live our culture.
- We are professionals who believe in growth, inclusion, and diversity.
- We promote teamwork and open communications to inspire all stakeholders.

Position: Environmental Technician

i-80 Gold Corp is seeking a candidate to fill the position of Environmental Technician. The successful candidate will ensure that all environmental sampling and other compliance obligations of the mine are achieved with regards to air, land, and water quality and quantity programs and permits.

Location: Ruby Hill Mine, Eureka, NV

Responsibilities

- Manage the air, land, and water quality and quantity monitoring programs including large complex data sets in database software
- Ensure quality assurance and quality control of data is acceptable for reporting and engineering decision making
- Document relevant field observations/notes and maintain monitoring equipment and reagents
- Oversee maintenance of existing compliance monitoring network and the development of modifications
- Ensure all legal, compliance/permitting obligations and special projects associated with water management are achieved
- Manage business partners (consultants, laboratories) as needed to generate reports of sufficient quality
- Assist with compiling field data for compliance reporting
- Complete specific assignments outside the field of sampling and monitoring as defined by supervisor(s)
- Perform other duties as assigned
- Exemplify the safety culture

Qualifications

- Post-Secondary Certificate/Diploma in Environmental Science/Engineering, Water Resource Management or comparable subject matter preferred
- Three (3) to five (5) years of direct experience in water quality/quantity monitoring and sampling required with three (3) years mining background
- Demonstrated ability with data compilation, graphical presentation, interpretation, and database maintenance/storage
- Computer skills including experience with PowerPoint, Word & Excel required, database management system experience preferred

- Proven ability to manage multiple projects simultaneously
- Excellent verbal, written, presentation and interpersonal skills
- Demonstrated knowledge and understanding of monitoring and sampling permit requirements relative to the state of Nevada preferred
- Experience with other environmental media such as waste, flora and fauna preferred
- Possession of a valid driver's license and satisfactory driving record
- The position requires the ability to work outside and regularly walk over uneven, sloped, rocky, wet or icy ground. Must have the ability to lift 50 or more pounds consistently and safely.
