Who are we?

- We are genuine, engaged, and dedicated to achieving goals in a safe, strategic, and sustainable manner.
- We overcome obstacles, follow-through on our commitments, take pride in our work, and live our culture.
- We are professionals who believe in growth, inclusion, and diversity.
- We promote teamwork and open communications to inspire all stakeholders.

Position: Environmental Technician

i-80 Gold Corp is seeking a candidate to fill the position of Environmental Technician (primarily a field-based role). The successful candidate will ensure that all environmental sampling and other compliance obligations of the mine are achieved with regards to air, land, and water quality/quantity programs and permits.

Location: i-80 Gold mine sites in vicinity of Winnemucca and Battle Mountain, NV

Responsibilities

- Provide assistance with air, land, and water quality/quantity monitoring programs including large complex data sets in database software
- Ensure quality assurance and quality control of data is acceptable for reporting and engineering decision making
- Document relevant field observations/notes and maintain monitoring equipment and reagents
- Oversee maintenance of existing compliance monitoring network and the development of modifications
- Understanding of site permit conditions and other compliance obligations
- Ensure all legal, compliance/permitting obligations and special projects associated with site environmental media are achieved
- Collaborate with business partners (consultants, laboratories) on field and analytical data compilation in addition to producing regulatory compliance reports of sufficient quality
- Complete specific assignments outside the field of sampling and monitoring as defined by supervisor(s)
- Perform other duties as assigned
- Exemplify the safety culture

Qualifications

- Three (3) to five (5) years of environmental media experience in a monitoring and sampling role **preferred** with three (3) yrs of direct mining experience **required**
- Demonstrated ability with data compilation, graphical presentation, interpretation, and database maintenance/storage

- Computer skills including experience with PowerPoint, Word & Excel required, database management system experience **preferred**
- Highly, self-motivated individual who is capable of working in a collaborative environment as well as independently
- Excellent verbal, written, presentation and interpersonal skills
- Demonstrated knowledge and understanding of monitoring and sampling permit requirements relative to the state of Nevada **preferred**
- Possession of a valid driver's license and satisfactory driving record
- The position requires the ability to work outside and regularly walk over uneven, sloped, rocky, wet or icy ground. Must have the ability to lift 50 or more pounds consistently and safely. Occasional overnight travel may be required.

How to Apply:
