Position: IT Infrastructure Specialist

i-80 Gold Corp is seeking an experienced IT Infrastructure Specialist to manage and support our company's server environments, network infrastructure, and compliance initiatives. The ideal candidate will play a critical role in maintaining a reliable and secure IT infrastructure, providing second-tier support, and ensuring our systems adhere to industry standards and regulations.

Location: Winnemucca, NV

Responsibilities:

- Manage and maintain servers, including deployment, configuration, and troubleshooting of physical and virtual servers.
- Oversee network infrastructure, including switches, routers, firewalls, VPNs, and wireless access points to ensure optimal performance and security.
- Monitor system performance, conduct upgrades, and implement best practices for infrastructure stability and security.
- Provide second-tier support for escalated IT issues, assisting end-users and internal teams with technical problems related to servers, networks, and security.
- Ensure IT infrastructure and operations comply with relevant industry standards, regulations, and internal policies.
- Assist with disaster recovery, backup, and business continuity planning.
- Collaborate with IT team members on projects involving infrastructure upgrades and migrations.
- Maintain documentation of systems configurations, network diagrams, and operational procedures.
- Stay current with emerging technologies and recommend innovations to improve efficiency and security.
- Other duties as assigned

Qualifications:

- Bachelor's degree in computer science, Information Technology, or related field, or equivalent experience.
- Proven experience managing Windows/Linux servers, network hardware, and security devices.
- Strong understanding of network protocols, VPNs, firewalls, and cybersecurity best practices.
- Familiarity with compliance standards (e.g., ISO, PCI-DSS, GDPR).
- Experience providing second-tier support and troubleshooting escalated issues.
- Excellent problem-solving and communication skills.
- Ability to work independently and as part of a team in a fast-paced environment.
- Valid driver's license.
- Climb stairwells and be capable of working on elevated platforms.
- Walk on uneven ground.
- Lift and potentially carry up to 25 lbs.
- Periodically work in adverse weather conditions.
- Periodically work in an underground environment.
- Sit for extended periods of time.

Preferred Certifications:

- Microsoft Certified: Windows Server or Azure
- Cisco CCNA or higher
- CompTIA Network+ or Security+
- Relevant compliance or security certifications (e.g., CISSP, CISA)

How to Apply:

Please refer to the Careers page on our website for instructions on how to apply. **Only those selected for an interview will be contacted. We thank you for your interest.
